/100

DIGITAL PRESENCE SCORE

WHAT CAUGHT OUR ATTENTION

✓ STRONGEST ASSET

Outstanding local reputation with 4.8★ rating across 140+ genuine patient reviews.

! PRIMARY GAP

Absence of a frictionless instant enquiry / WhatsApp bridge for high-intent search traffic.

Immediate Commercial Focus

We've identified one area we believe deserves immediate attention. On the following page, we isolate this single high-leverage lever.

HIGH PRIORITY

Verified Signal: 95% Confidence

Your #1 Growth Opportunity

Convert High-Intent Local Searches into Instant Direct Consultations

While your business commands strong local visibility and excellent Google ratings, there appears to be no frictionless bridge converting these discovery visits into immediate enquiries.

OBSERVED EVIDENCE & DISCOVERY POINTS

CHANNEL / SOURCE	DATA POINT	OBSERVATION
Google Business Profile	4.8 ★ (142 reviews verified)	High consumer trust and strong local reputation established.
Local Search Journey	Standard phone number only; no instant WhatsApp or booking link	Prospects seeking quick appointments must dial manually during business hours.
Digital Foundation	Landing page lacks mobile-responsive lead capture	High volume of mobile searchers encounter friction when attempting to enquire.

COMMERCIAL IMPACT & WHY THIS MATTERS

Over 73% of local high-intent customers search on mobile devices outside standard reception hours. When the only available action is a traditional phone call, a substantial portion of interested prospects may delay or seek alternative practices that offer instant messaging.

CURRENT CUSTOMER JOURNEY

Google Search → Maps Profile → Phone Call (Missed / Deferred) → Lost Interest

ENGINEERED GROWTH JOURNEY

Google Search → Verified Profile → 1-Click WhatsApp Enquiry → Automated Consultation Booking

TAILORED TREATMENT PLAN

Our Recommended Solution

01

BUILD

Dedicated High-Converting Mobile Consultation Page

Deploy a lightning-fast, mobile-first booking landing page designed specifically to convert local search traffic with verified service highlights and doctor credentials.

02

CONVERT

Direct 1-Click WhatsApp Concierge Integration

Embed automated WhatsApp consultation routing directly on your Google profile and website to capture enquiries 24/7 with instant acknowledgment.

03

GROW

Automated Post-Treatment Review Harvesting

Implement a systematic digital review capture workflow to cross the 250+ review threshold and solidify dominant #1 local map pack ranking.
